ABOUT ME

I am a tech enthusiast with a passion for developing innovative solutions andproblem solving. As a dedicated lifelong learner, I continuously seek newchallenges and opportunities to broaden my knowledge and skills in IT. Ienjoy simplifying complex technical concepts and using technology to solvereal-world problems. I'm always driven to stay at the forefront of industryadvancements, constantly striving to grow and improve .

PROJETS

HYGIENE MONITIRING SYSTEM

- Role - Frontend developer
- Technologies - YOLO V5, PYTHON , Open CV
- Description - Developed an AI-based hygiene monitoring system for industrial areas using YOLOv5 to detect safety gear like caps, coats, gloves and boots. If a violation is found, it triggers an alarm and sends real-time alerts. Also created an demo IVRS dashboard in Tkinter for automated customer communication and service bookings, improving efficiency in handling requests.
- Duration - 1 month

360 FEEDBACK GENERATOR FOR BIT

- Role - Individual developer
- Technologies - React , Mongodb , Excel , Firebase
- Description - Developed a dashboard to track faculty achievements, projects, seminars, and webinars with real-time updates. It uses Firebase and MongoDB for secure data storage and React for a responsive, user-friendly interface. Excel integration allows easy data import and export, making faculty performance tracking more efficient for institutions.
- Duration - 2 months.

CERTIFICATIONS

- Infosys springboot courses on Python for beginners (22.12.2022)
- Infosys springboot courses on Python for intermediate (17.2.2023)
- Great learning - AWS for beginners .

DECLARATION

I am hereby that the above written particulars are true to the best of my knowledge.
